

# How to register?

To use all the features of the website, such as uploading the job offers or a creation of an online profile it is necessary to proceed through the registration.

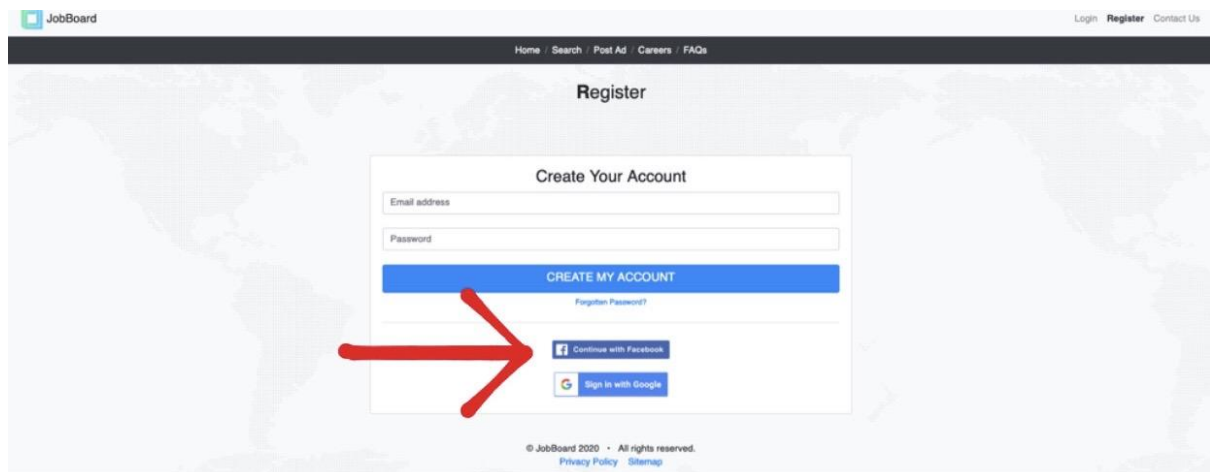

In the top right corner of each page you can find a small Login, Register and Contact Us navigation bar.

By clicking the “Register” it gets you to the Register page.

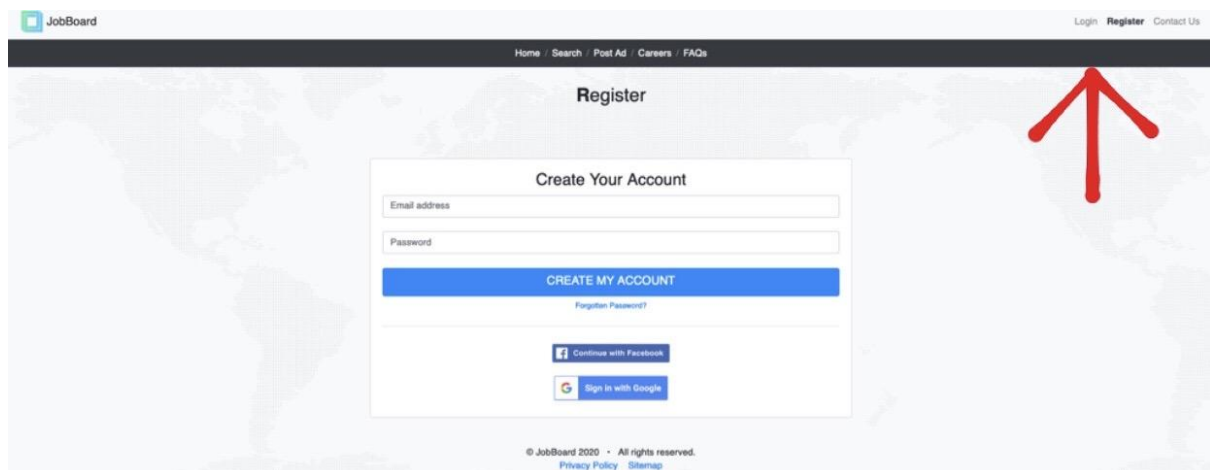

You can either create your account through your Facebook or Google Account. By clicking one of the possibilities you create a profile on the JobBoard.
